A WOMAN'S COMPLEXION.

It is rank foolishness to attempt to remove sallowness or greyness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25c; regular size, 75c. At all druggists.

Instead of a tobacco war which has been anticipated ever since the organization recently of the Loose Tobacco Warehouse Company in Lexington, it now appears that the new Company and the Burley Growers Association are to work together in harmony and strive by their united efforts to advance Lexington's interests toward securing the bulk of the tobacco business of the state.

THE SWEETEST STORY EVER TOLD!

Once I was a waif in a big city, and finally grew up to fame 'till it spread all over the land—and once you get acquainted with me, you'll always know me and want more of me. I am the rage of the whole country! I am loved East and West and adored in the South. I am the only one in the country—old and young say "I am good; sweet enough to eat." You'll say so too. I am the purest and most wholesome candy on the market, and but one firm knows how to make me. I've been imitated time and again, but they all give it up, because they can't just make me as good, sweet and delicious—me, the only Satin Honey Comb Candy. I am making my home at

SUPPORT HOME INDUSTRY!

MAYSVILLE, KY., Dec. 14, 1903.

Editor Public Ledger: I been in your city for some time, employed in the Green River Tobacco Factory. I have been in many of the business places where tobacco is sold, and in a large majority of these places there is a conspicuous absence of any of the goods manufactured by the above factory.

I have been in the business in different ways for more than 40 years; I have been employed in factories in many of the large cities of the country, but I will state that in the entire list not one of them could compare favorably with the Green River Tobacco Factory in perfect equipment. It has all the modern machinery for ordering and manufacturing, handled by experienced up-to-date men, who use nothing but the very best of stock and finest of flavors.

Why it is not handled and pushed to the front by all the dealers here I cannot understand. It is an independent concern, and its output is far superior to any goods manufactured by the Trust.

Their "Kentucky Colonel" brand is superior in quality and quantity to the "Granger," and their strait twist, "Rippling Brook," is the best goods of its kind on the market, while all their plug goods are of equal value, properly made and handsomely put up.

I don't think they offer any premiums to the men that use the most—cast iron razors and pot-metal scissors,—but they do offer good stock and correct workmanship.

Every man who uses tobacco should call for it, and every man who sells tobacco should handle it and push it and thus enable the company to employ more labor, which means an increased pay roll, which would be distributed through the different branches of trade in the city. Thus, by helping others, they would help themselves.

This is a fine plant and capable of doing a much larger business, and it is the duty of the business men of the city to help add to its already large business by handling its goods and pushing them in preference to all others. Respectfully,
J. L. YOUNG.
